Report Summary (AI Analysis):

Power: Power is consistently at the minimum (40) which may not be sufficient for optimal performance

Flow: Last value (5) is at the minimum threshold

UVT: Last value (63.9) is below the average (78.7) and significantly below the required UVT (95)

UVIs: Last value (4.2) is at the minimum

UVIs: Last value (3.9) is at the minimum

Lamp UVT: Last value (63.9) is below the minimum (78.7)

Digi bot

The screenshot displays the Digi bot interface within a web browser. The browser's address bar shows "digi by Atlantium". The page header includes navigation links for Home, Reports, and Systems, along with a "+ New System" button. A greeting "Hi Atlantium Administrator, Welcome Back" is visible. The main content area features two large circular graphics: one labeled "All 3" and another labeled "Malfunction 0". A chat window is open in the center, titled "digi by Atlantium". It contains a message from the bot: "Sure! Here's a brief overview of Atlantium in clear HTML format: ""html". The chat window displays the following content:

About Atlantium Technologies

Atlantium Technologies, founded in 2003, specializes in providing innovative water treatment solutions using its patented Hydro-Optic Disinfection (HOD™) UV technology. The company is dedicated to ensuring water biosecurity for various industries, including dairy, food & beverage, pharmaceuticals, and aquaculture.

Our Mission

Atlantium is committed to delivering pure results, clear confidence, and full flow in every application for every customer. Our advanced water treatment solutions are designed to meet the growing need for safe water while being environmentally friendly.

Key Features of HOD™ Technology

- Effective microbial inactivation without the use of chemicals.
- Real-time monitoring and control of UV dose and water quality.
- Validated to the highest regulatory standards, including EPA and FDA.
- Cost-effective and sustainable solutions for water treatment.

Global Impact

With thousands of installations worldwide, Atlantium's systems are trusted by leading brands to ensure water safety and quality. Our technology supports the biosecurity needs of various applications, from

The chat window also includes a text input field with the placeholder "tell me about atlantium", a "Send" button, an "Attach Image" button, and a microphone icon. A status indicator "2" is visible in the bottom right corner of the chat window. The footer of the page shows "SW ver: 9.0.3.0" and the "Pure Performance" logo.
